On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!, a menu-driven database system. The INTERNET address for GSA Advantage! is: GSAAdvantage.gov.

Mod PO-0014
Effective Date: 04/06/2009

CUSTOMER INFORMATION

1a. Awarded Special Item Numbers:

899-1 Environmental Planning Services & Documentation

899-2 Environmental Compliance Services

899-3 Environmental/Occupational Training Services

899-4 Waste Management Services

899-5 Hazardous Materials Management

899-6 Remote Advisory Services

899-7 Geographical Information Systems (GIS)

899-8 Remediation Services

1b. Lowest Priced Model Number for each Awarded Special Item Number(s):

See price list.

2. **MAXIMUM ORDER GUIDELINE:** Maximum order is \$5,000,000 for all awarded SINs. Requirements exceeding the maximum order may be handled pursuant to clause I-FSS-125 (August 1995).

In accordance with FAR 8.404, there may be circumstances where an ordering activity finds it advantageous to request a price reduction such as where a quantity of an individual order clearly indicates the potential for obtaining a reduced price. To assist customer agencies in determining when they should seek a price decrease, a level called a Maximum Order has been established under the contract. When a n agency order exceeds this maximum a mount, it is recommended that the ordering activity contact the contractor for a reduced price.

a. The contractor may:

1. Offer a new lower price for this requirement (the Price Reduction clause is not applicable to orders placed over the Maximum Order in FAR 562.216-19);
2. Offer the lowest price available under the contract ; or,
3. Decline the order; orders must be returned in accordance with FAR 52.216-19.

Formatted: Bullets and Numbering

b. A delivery order for quantities that exceed the Maximum Order may be placed with the contractor selected in accordance with FAR 8.404. The order will be placed under the current contract.

c. Sales for orders that exceed the maximum order shall be reported in accordance with GSAR 552.238-72.

Formatted: Bullets and Numbering

3. **MINIMUM ORDER LIMITATION:** \$100.00

4. **GEOGRAPHIC COVERAGE:** SAIC Worldwide locations.

5. **POINTS OF PRODUCTION:** SAIC Worldwide locations.

6. **DISCOUNT FROM LIST PRICES:** All prices herein are net.

7. **QUANTITY DISCOUNT:** Contractor will offer volume discounts on large dollar orders. Exact discount and terms will be negotiated on individual issued task order. Work being performed “on-site” will also be subject to additional discounts.
8. **PROMPT PAYMENT TERMS:** Discount will be handled on an order by order basis.
- 9a. **GOVERNMENT COMMERCIAL CREDIT CARD AT OR BELOW MICRO-PURCHASE THRESHOLD:** Government commercial credit cards are acceptable for orders below the micropurchase threshold.
- 9b. **GOVERNMENT COMMERCIAL CREDIT CARD ABOVE MICRO-PURCHASE THRESHOLD:** Contact Contractor’s Representative for credit card acceptance of orders above the micropurchase threshold. Discounts for use of the card may be available upon request.
10. **FOREIGN ITEMS:** None.
- 11a. **TIME OF DELIVERY:** To be negotiated with ordering agency on each task order.
- 11b. **EXPEDITED DELIVERY:** To be negotiated with ordering agency on each task order.
- 11c. **OVERNIGHT/2-DAY DELIVERY:** To be negotiated with ordering agency on each task order.
- 11d. **URGENT REQUIREMENTS:** To be negotiated with ordering agency on each task order.
12. **FOB POINT:** To be negotiated with ordering agency on each task order.
13. **ORDERING ADDRESS:**
Science Applications International Corporation (SAIC)
ATTENTION: Sandra Reid
901 D Street, S.W., Suite 201
Washington, DC 20024
- Sandra Reid

CONTRACT OVERVIEW

Under the General Services Administration Federal Supply Schedule contract for Environmental Services (ES) schedule no. GS-10F-0076J, SAIC's diverse and in-depth knowledge of environmental services is available to all federal government and other authorized agencies using a streamlined ordering process. SAIC was awarded the Schedule 899 Environmental Services contract on April 6, 1999. The ES contract is an indefinite delivery, indefinite quantity (IDIQ) multiple award schedule contract that provides for task orders to be placed as firm fixed-price or time and material using the labor categories and ceiling rates defined in the contract. The order type is at the discretion of the ordering agency.

Under the Federal Supply Schedule program, GSA enters into contracts with commercial firms to provide supplies and services at stated prices for given periods of time. Orders are placed directly with the schedule contractor, and deliveries are made directly to the customer. The federal supply schedule program mirrors commercial buying practices more than any other procurement process in the federal government today. It provides customers with literally millions of state-of-the-art, high-quality commercial products and services at volume discount pricing on a direct delivery basis. The Federal Supply Schedule program also offers the benefits of shorter lead times, lower administrative costs, and reduced inventories.

Multiple Award Schedule contracts are awarded to contractors supplying comparable commercial supplies and services at government-negotiated, pre-approved prices. They provide federal agencies with the variety and the flexibility necessary to select the best-valued professional services to meet their requirements. Consistent with the Competition in Contracting Act, multiple award schedule contracts are competitive in that participation in the program is open to all responsible sources, and orders placed following the procedures in Federal Acquisition Regulation 8.4 result in the lowest overall cost alternative. Therefore, when placing orders under federal supply schedules, ordering offices need not: 1) seek further competition, 2) synopsise the requirement, 3) make a separate determination of fair and reasonable pricing, or 4) consider small business programs. GSA already has determined the prices of items under schedule contracts to be fair and reasonable.

Advantages of Using the GSA Environmental Services Schedule 899 Contract

Using GSA Schedule contracts to place an order provides many benefits to the ordering agency. These benefits include:

- Five-year contract-ordering period with three - five year options. Current ordering period is through April 5, 2014.
- Indefinite delivery / indefinite quantity contract (IDIQ)
- Available to all federal agencies and authorized organizations
- No synopsis (FedBizOpps posting) is required – all competitive requirements have been met
- Direct customer and contractor relationship – no transfer of funds to GSA required
- Reduced lead times – procurement cost savings
- Labor categories and rates for fixed price and time and materials task orders
- Provides for teaming and subcontracts
- Blanket purchase agreements may be established

How to Use This Schedule

In accordance with the Federal Acquisition Streamlining Act of 1994 and the Federal Acquisition Reform Act of 1996, GSA's streamlined ordering procedures have reduced the government procurement process to a few simple steps. While the Federal Supply Schedule program already has determined these rates and prices to be fair and reasonable, ordering offices must determine that the total price is reasonable for the specific tasks required by the agency. Based on quotes requested from contractors that appear to offer the best value (considering scope of services offered, hourly rates, contractor's locations and other factors, as appropriate), the ordering agency selects the one that best meets its needs.

This contract is available to all federal agencies as a source of environmental services for domestic and overseas use. Executive agencies, other federal agencies, mixed-ownership government corporations, and the District of Columbia; government contractors authorized in writing by a federal agency pursuant to FAR Part 51; and other activities and organizations authorized by statute or regulation including state and local governments to use GSA as a source of supply may use this contract. Additionally, contractors are encouraged to accept orders received from activities within the executive branch of the federal government. GSA Order ADM 4800.2E provides a complete list of authorized schedule users.

Total price for supplies and/or services are established at the time the task order is placed and are based on the rates and prices offered in the SAIC ES Price List catalog. The resultant task order details should include but is not limited to the product ordered, the estimated number of hours, the labor categories to be provided, and any related items. If the ordering agency's contracting officer chooses to purchase services on a labor-hour-time-and-material basis, the resultant task order will specify the not-to-exceed price, the labor categories proposed (with the hourly rates for each), and any applicable travel and other direct costs.

Federal Acquisition Regulation 8.4 provides procedures for the acquisition of services and products using GSA schedule contracts.

For orders of supplies and/or services below \$2,500: Place the order with any Schedule contractor that can meet the agency's needs. Though not required to solicit from a specific number of Schedule contractors, ordering activities should attempt to distribute orders among contractors (FAR 8.405).

For Supplies and Services Not Requiring a SOW: Survey at least three Schedule contractors through the GSA *Advantage!*® online shopping service or review the catalogs or pricelists of at least three Schedule contractors (more if over \$200,000) pricelists (the GSA *Advantage!*® online shopping service may be used to facilitate this review and seek additional price reductions where appropriate; evaluate; and make a best value selection.

For Services Requiring a Statement of Work: To summarize the process for ordering services, the government agency:

1. Prepares a request for quotation that includes:
 - A performance-based statement of work that outlines the work to be performed
 - Type of task order – time and material or firm fixed price
 - Basis to be used for contractor selection (best value, etc.)

2. Transmits the request for quotations to contractors:

- DoD <\$100K and Non-DoD: Select- at least three (more if task order value exceeds MOT) qualified contractors on the schedule.
 - DoD >\$100K: IAW DFAR 208.4 “Federal Supply Schedules” which incorporates the competition requirements of Section 803 of the 2002 Defense Authorization Act - DoD Contracting Officers are required to evaluate three bids OR determine in writing that despite reasonable efforts to do so no other contractors were identified that could fill the work requirements
- Sends requests for quotations to selected contractors. GSA’s e-buy provides ordering agencies a streamlined, Web-based system for ordering services using the GSA schedules.

3. Evaluates quotes and selects the contractor to receive the order:

- Evaluates responses based on the factors identified in the requests for quotations
- Places the order directly with the schedule contractor that represents the best value and results in the lowest overall cost alternative, considering price, special qualifications, administrative costs, and so forth.

The requesting government agency’s contracting office directly issues the task order to the selected contractor without GSA involvement in the procurement process. All task order reporting requirements and remission of fees to GSA are the responsibility of the contractor.

CONTRACT CLAUSES

GSA multiple award schedule contracts are awarded in accordance with the provisions of Federal Acquisition Regulation Part 12 – Acquisition of Commercial Items. As much as possible, GSA multiple award schedule contracts include only those clauses required, either to implement provisions of law or executive orders applicable to the acquisition of commercial items or determined to be consistent with customary commercial practice. Ordering agencies may incorporate provisions in their task orders that are essential to their specific requirements (e.g., security, key personnel) provided they do not conflict with the terms and conditions of the contract. These provisions, when required, must be included in the individual task order, and any costs necessary to comply with the provision(s) will be included in the task order proposal price estimate, unless otherwise prohibited by law. For a list of clauses and terms and conditions included in the ES contract, contact the SAIC ES points of contact.

MAXIMUM ORDER THRESHOLD (MOT)

All GSA MAS contracts contain a price point called a maximum order threshold. This threshold is not a ceiling on an order size; rather, it is a point where the ordering agency needs to consider additional contractors (more than three) and seek discounts from the listed catalog rates.

The maximum threshold for the SINS (899-1, 899-2, 899-3, 899-4, 899-5, 899-6, 899-7, 899-8) currently on the ES contract is \$5,000,000. When placing an order that exceeds the maximum order threshold, ordering offices shall follow the standard ordering procedures, and the following additional procedures:

1. Consider additional schedule contractors (more than three)
2. Seek price reductions from the schedule contractor(s) offering the best value (considering price and other factors)

3. Selected contractor(s) may choose to offer a lower price for the requirement (the price reduction clause is not applicable to orders placed over the maximum order threshold)
4. After price reductions have been sought, place the order with the schedule contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

BLANKET PURCHASE AGREEMENTS (BPA)

Ordering activities may establish blanket purchase agreements under any GSA schedule contract. A GSA schedule blanket purchase agreement simplifies the filling of recurring needs for supplies or services, while leveraging a customer's buying power by taking advantage of quantity discounts, thus saving administrative time and reducing paperwork.

Blanket purchase agreements are established in accordance with the procedures in Federal Acquisition Regulation Part 8.405-3. An ordering activity may request a price reduction based on the total estimated volume of the blanket purchase agreement, regardless of the size of individual orders. Blanket purchase agreements may be established with one or more scheduled contractors at the discretion of the ordering activity. When establishing multiple blanket purchase agreements, the ordering activity must specify the procedures for placing orders under the blanket purchase agreements. A GSA schedule blanket purchase agreement should not exceed five years in length, but may do so to meet program requirements. A blanket purchase agreement may extend beyond the current term of its GSA schedule contract, so long as there are option periods in the GSA schedule contract that, if exercised, will cover the blanket purchase agreement's period of performance.

SUBCONTRACTING TO SMALL BUSINESSES

Recognizing both the social and economic benefits, SAIC is committed to the maximum practicable use of small, HUBZone small, small disadvantaged and women-owned small business concerns as subcontractors.

COMPANY OVERVIEW

SAIC is a FORTUNE 500® scientific, engineering and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health. The company's approximately 45,000 employees serve customers in the U.S. Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. Government civil agencies and selected commercial markets. SAIC had annual revenues of \$10.1 billion for its fiscal year ended January 31, 2009. For more information, visit www.saic.com. SAIC: From Science to Solutions®

SPECIAL ITEM NUMBER DESCRIPTIONS

The Special Item Numbers (SINs) available under this contract are examples only and are not meant to exclude or limit any authentic Environmental Services under this Federal Supply Schedule. SAIC has been awarded a contract by GSA to provide services under eight contract SINs, as defined below:

899-1 Environmental Planning Services & Documentation:

Services include, but are not limited to: Environmental Consulting that includes the development, planning, facilitation, coordination and documentation of and/or for initiatives in areas of chemical, biological, radiological, and/or hazardous material services; Environmental Assessments and Environmental Impact Statements under the National Environmental Policy Act (NEPA); Endangered Species, Wetlands, Watersheds and other Natural Resource Management plans; Archeological and/or Cultural Resource Management Plans; Environmental Program and Project Management and Environmental Regulation Development; Economic, Technical and/or Risk Analysis; and, other environmentally related studies and/or consultations. Homeland Security issues including vulnerability assessments, biochemical protection, identification of threats and protective measures to mitigate the threats and Crime Prevention through Environmental Design (CPTED) surveys.

899-2 Environmental Compliance Services:

Services to include, but not limited to: Environmental Compliance Audits; Compliance Management and/or Contingency Planning; Permitting; Spill Prevention/Control and Countermeasure Plans; Pollution Prevention Surveys; ISO 14000/ Environmental Management Systems (EMS); and, Community Right to-Know Act reporting.

899-3 Environmental/Occupational Training Services:

Training to include standard (off -the-shelf), customized, and/or computer-based interactive courses, as well as converting existing courses to electronic media. Training may be conducted on or off site and may be on any number of environmentally related issues, including fire preparedness training and public fire safety education.

899-4 Waste Management Services:

Contractors shall provide operational service, advice, or guidance in support of agencies- Waste Management Services. Examples include, but are not limited to: Data Collection, Feasibility or Risk Analysis; RCRA/CERCLA Site Investigation; Hazard and/or Non Hazardous Exposure Assessments; Waste Characterization and Source Reduction Studies; Review and Recommendation of Waste Tracking or Handling Systems; Waste Management Plans and/or Surveys; Waste Minimization/Pollution Prevention Initiatives; Review of Technologies and Processes Impacting Waste Management; Management, Furnishing or Inventory of Material Safety Data via CD, Internet, Facsimile, Mail or other Media; Development of Emergency Response Plans

899-5 Reclamation, Recycling & Disposal Services:

Services include, but are not limited to: Establishment and/or operation of waste management and/or recycling systems to include waste collection, reuse assessments, inventory, destruction, inventory transfer and/or disposal after compliance with GSA Office of Personal Property Management requirements outlined in Federal Management Regulations 101-42, 102-36, and 102-37 (as applicable). Types of waste management and/or recycling systems include, but are not limited to: Excess Inventory; Surplus Inventory; Management and oversight of HazMat disposal operations; Confiscated Materials; Electronic Equipment; Batteries; Chemicals; Solids; Biological matter; Cathode Ray Tubes (CRTs); and Waste Minimization/Pollution Prevention initiatives. These efforts do not include transportation and/or disposal of radioactive waste. No remediation efforts are associated with this SIN.

899-6 Environmental Advisory Services

Services include, but are not limited to: Ongoing advice and assistance with data and information in support of agency Environmental programs involving areas such as Hazardous Material Spills; Material Safety Data Sheets; Information Hotlines; Poison Control Hotlines; Environmental Regulations, Biological/Medical Data Sheets and Environmental Policy/Procedure Updates.

899-7 Geographic Information Systems (GIS):

Provide services, advice, or guidance in support of agencies environmental programs utilizing GIS. Services to include, but not limited to: Mapping and Cartography; Natural Resource Planning; Migration Pattern Analysis; Pollution Analysis; Site Selection; and Emergency Preparedness Planning. Provide services to support Geologic Logs, Topographic Data, 3D/4D Interactive Visualization Packages and Data Interpretation.

899-8 Remediation Services:

Services include, but are not limited to: excavation, removal and disposal of hazardous waste; Remediation-related laboratory testing; Site preparation, characterization, field investigation, conservation and closures; Wetland restoration; Emergency Response Clean up; , UST/AST Removal; Air monitoring; Soil vapor extraction; stabilization/solidification, bio-venting, carbon absorption, reactive walls, containment, monitoring and/or reduction of hazardous waste sites as well as unexploded ordnance removal. This effort does NOT include: any remediation/transportation, disposal of radioactive waste, asbestos removal and/or paint removal, Construction and Architect-Engineering services as set forth in FAR Part 36 (including construction, alteration or repair of buildings, structures, or other real property) or Disposal only. Disposal services performed under this SIN must be ancillary to remediation services performed.

GSA Schedule Price List: SIN 899-1 to 899-8

Labor Categories: SAIC offers 28 labor categories and rates ranging from an hourly rate of \$28.15 to \$277.95 to quickly respond to a variety of Environmental Services and locations worldwide. The wide range of labor categories enable SAIC to assemble a team with the right expertise and experience to meet your unique task requirements.
