1a. Special Item Numbers:

SIN 874-1 Consultation Services

SIN 874-2 Facilitation Services

SIN 874-3 Survey Services

SIN 874-5 Support Products

SIN 874-6 Acquisition Management Support

SIN 874-7 Program and Project Management Services

1b. Price list and rates: See Page 12

1c. Labor Category descriptions and qualifications: See price list.

2. Maximum Order: \$1,000,000. Requirements exceeding the maximum order may be handled pursuant to clause I-FSS-125 (August 1995).

In accordance with FAR 8.404, there may be circumstances where an ordering activity finds it advantageous to request a price reduction such as where a quantity of an individual order clearly indicates the potential for obtaining a reduced price. To assist customer agencies in determining when they should seek a price decrease, a level called a Maximum Order has been established under the contract. When an agency order exceeds this maximum amount, it is recommended that the ordering activity contact the contractor for a reduced price.

The contractor may:

- Offer a new lower price for this requirement (the Price Reduction clause is not applicable to orders placed over the Maximum Order in FAR 52.216-19);
- Offer the lowest price available under the contract; or,
- Decline the order; orders must be returned in accordance with FAR 52.216-19.

A delivery order for quantities that exceed the Maximum Order may be placed with the contractor selected in accordance with FAR 8.404. The order will be placed under the current contract.

Sales for orders that exceed the Maximum Order shall be reported in accordance with GSAR 552.238-72.

3. Minimum Order: \$ 300.

4. Geographic Coverage: SAIC worldwide locations.

5. Point(s) of Production: SAIC worldwide locations.

6. **Discount from List Prices or Statement of Net Price:** All prices herein are net.
7. **Quantity Discounts:** None
8. **Prompt Payment Terms:** 0% net 30 days.

SAIC MOBIS OVERVIEW

Under the General Services Administration federal supply schedule contract Mission Oriented Business Integrated Services (MOBIS), solicitation no. TFTP-MC-000874-B, SAIC provides a broad spectrum of products and services focused on improving the performance of federal agencies and other organizations. Services range from the analysis and design of enterprise information and telecommunications systems to strategic and business planning, quality management and business process improvement.

The MOBIS contract is an indefinite delivery, indefinite quantity multiple award schedule contract that provides for task orders to be placed as firm fixed-price or time and material using the labor categories and ceiling rates defined in the contract. The order type is at the discretion of the ordering agency. To learn more about SAIC's MOBIS contract, please visit our Web site at <http://www.saic.com/contractcenter/>.

Under the federal supply schedule program, GSA enters into contracts with commercial firms to provide supplies and services at stated prices for given periods of time. Orders are placed directly with the schedule contractor, and deliveries are made directly to the customer. The federal supply schedule program mirrors commercial buying practices more than any other procurement process in the federal government today. It provides customers with literally millions of state-of-the-art, high-quality commercial products and services at volume discount pricing on a direct delivery basis. The federal supply schedule program also offers the benefits of shorter lead times, lower administrative costs, and reduced inventories.

Multiple award schedule contracts are awarded to contractors supplying comparable commercial supplies and services at government-negotiated, pre-approved prices. They provide federal agencies with the variety and the flexibility necessary to select the best-valued professional services to meet their requirements. Consistent with the Competition in Contracting Act, multiple award schedule contracts are competitive in that participation in the program is open to all responsible sources, and orders placed following the procedures in Federal Acquisition Regulation 8.4 result in the lowest overall cost alternative. Therefore, when placing orders under federal supply schedules, ordering offices need not: 1) seek further competition, 2) synopsise the requirement, 3) make a separate determination of fair and reasonable pricing, or 4) consider small business programs. GSA already has determined the prices of items under schedule contracts to be fair and reasonable.

Advantages of Using the GSA MOBIS Services Contract Include:

- Five-year contract-ordering period with one five year option.
- Indefinite delivery / indefinite quantity contract with no ceiling and no maximum order limitations.
- Available to all federal agencies and authorized organizations.
- No synopsis (FedBizOpps posting) is required – all competitive requirements have been met.
- Direct customer and contractor relationship – no transfer of funds to GSA required.
- Reduced lead times – procurement cost savings.
- Labor categories and rates for fixed price and time and materials task orders.

- Provides for teaming and subcontracts.
- Blanket purchase agreements may be established.

HOW TO USE THIS SCHEDULE

In accordance with the Federal Acquisition Streamlining Act of 1994 and the Federal Acquisition Reform Act of 1996, GSA's streamlined ordering procedures have reduced the government procurement process to a few simple steps. While the federal supply schedule program already has determined these rates to be fair and reasonable, ordering offices must determine that the total price is reasonable for the specific tasks required by the agency. Based on quotes requested from three contractors that appear to offer the best value (considering scope of services offered, hourly rates, contractor's locations and other factors, as appropriate), the ordering agency selects the one that best meets its needs.

This contract is available to all federal for domestic and overseas use. Executive agencies, other federal agencies, mixed-ownership government corporations, and the District of Columbia; government contractors authorized in writing by a federal agency pursuant to FAR Part 51; and other activities and organizations authorized by statute or regulation to use GSA as a source of supply may use this contract. Additionally, contractors are encouraged to accept orders received from activities within the executive branch of the federal government. GSA Order ADM 4800.2E provides a complete list of authorized schedule users.

Total price for services are established at the time the task order is placed and are based on the rates offered in the SAIC MOBIS Price List catalog. The resultant task order details the estimated number of hours, the labor categories to be provided, and any related items. If the ordering agency's contracting officer chooses to purchase services on a labor-hour-time-and-material basis, the resultant task order will specify the not-to-exceed price, the labor categories proposed (with the hourly rates for each), and any applicable travel and other direct costs.

Federal Acquisition Regulation 8.4 provides procedures for the acquisition of services using GSA schedule contracts.

For orders of supplies and/or services below \$3,000: Place the order with any Schedule contractor that can meet the agency's needs. Though not required to solicit from a specific number of Schedule contractors, ordering activities should attempt to distribute orders among contractors (FAR 8.405).

For Supplies and Services Not Requiring a SOW: Survey at least three Schedule contractors through the GSA *Advantage!*® online shopping service or review the catalogs or pricelists of at least three Schedule contractors (more if over \$200,000) pricelists (the GSA *Advantage!*® online shopping service may be used to facilitate this review and seek additional price reductions where appropriate; evaluate; and make a best value selection.

For Services Requiring a Statement of Work: To summarize the process for ordering services, the government agency:

1. Prepares a request for quotation that includes:
 - A performance-based statement of work that outlines the work to be performed.
 - Type of task order – time and material or firm fixed price.

- Basis to be used for contractor selection (best value, etc.).
2. Transmits the request for quotations to contractors:
 - Selects at least three (more if task order value is more than \$1 million) qualified contractors on the schedule. Note: Department of Defense agencies need to refer to DFAR 208.4 when ordering services over \$100,000 using the GSA schedules.
 - Sends requests for quotations to selected contractors. GSA's e-buy provides ordering agencies a streamlined, Web-based system for ordering services using the GSA schedules.
 3. Evaluates quotes and selects the contractor to receive the order:
 - Evaluates responses based on the factors identified in the requests for quotations.
 - Places the order directly with the schedule contractor that represents the best value and results in the lowest overall cost alternative, considering price, special qualifications, administrative costs, and so forth.

The requesting government agency's contracting office directly issues the task order to the selected contractor without GSA involvement in the procurement process. All task order reporting requirements and remission of fees to GSA are the responsibility of the contractor.

CONTRACT CLAUSES

GSA multiple award schedule contracts are awarded in accordance with the provisions of Federal Acquisition Regulation Part 12 – Acquisition of Commercial Items. As much as possible, GSA multiple award schedule contracts include only those clauses required, either to implement provisions of law or executive orders applicable to the acquisition of commercial items or determined to be consistent with customary commercial practice. Ordering agencies may incorporate provisions in their task orders that are essential to their specific requirements (e.g., security, hazardous material handling, and key personnel) provided they do not conflict with the terms and conditions of the contract. These provisions, when required, must be included in the individual task order, and any costs necessary to comply with the provision(s) will be included in the task order proposal price estimate, unless otherwise prohibited by law. For a list of clauses and terms and conditions included in the MOBIS contract, contact the SAIC MOBIS points of contact.

ORDERS EXCEEDING THE MAXIMUM ORDER THRESHOLD (MOT)

All GSA MAS contracts contain a price point called a maximum order threshold. This threshold is not a ceiling on an order size; rather, it is a point where the ordering agency needs to consider additional contractors (more than three) and seek discounts from the listed catalog rates.

When placing an order that exceeds the maximum order threshold, ordering offices shall follow the standard ordering procedures, and the following additional procedures:

1. Consider additional schedule contractors (more than three)
2. Seek price reductions from the schedule contractor(s) offering the best value (considering

price and other factors)

3. Selected contractor(s) may choose to offer a lower price for the requirement (the price reduction clause is not applicable to orders placed over the maximum order threshold)
4. After price reductions have been sought, place the order with the schedule contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

BLANKET PURCHASE AGREEMENTS

Ordering activities may establish blanket purchase agreements under any GSA schedule contract. A GSA schedule blanket purchase agreement simplifies the filling of recurring needs for supplies or services, while leveraging a customer's buying power by taking advantage of quantity discounts, thus saving administrative time and reducing paperwork.

Blanket purchase agreements are established in accordance with the procedures in Federal Acquisition Regulation Part 8.405-3. An ordering activity may request a price reduction based on the total estimated volume of the blanket purchase agreement, regardless of the size of individual orders. Blanket purchase agreements may be established with one or more scheduled contractors at the discretion of the ordering activity. When establishing multiple blanket purchase agreements, the ordering activity must specify the procedures for placing orders under the blanket purchase agreements. A GSA schedule blanket purchase agreement should not exceed five years in length, but may do so to meet program requirements. A blanket purchase agreement may extend beyond the current term of its GSA schedule contract, so long as there are option periods in the GSA schedule contract that, if exercised, will cover the blanket purchase agreement's period of performance.

SUBCONTRACTING TO SMALL BUSINESS

Recognizing both the social and economic benefits, SAIC is committed to the maximum Practicable use of small, HUBZone small, small disadvantaged and women-owned small business concerns as subcontractors.

COMPANY OVERVIEW

SAIC is a FORTUNE 500® scientific, engineering and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health. The company's approximately 45,000 employees serve customers in the U.S. Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. Government civil agencies and selected commercial markets. SAIC had annual revenues of \$10.1 billion for its fiscal year ended January 31, 2009. For more information, visit www.saic.com. SAIC: From Science to Solutions

SPECIAL ITEM NUMBER (SIN) DESCRIPTIONS***SIN 874-1 – Consulting Services***

Contractors shall provide providing expert advice, assistance, guidance or counseling in support of agencies' mission oriented business functions, as follows: Management or strategy consulting; program planning, audits and evaluations; studies, analyses, scenarios, and reports relating to mission-oriented business programs or initiatives, such as defense studies, tabletop exercises or scenario simulations; educational studies, regulatory studies, economic studies, and preparedness studies; executive/management coaching services; customized training as part of a consulting engagement; policy and regulatory development and review; expert witness services in support of litigation, claims, or other formal cases, and advisory and assistance services in accordance with FAR 37.203(b). Financial audits are covered under GSA Schedule 520, Financial and Business Services, and are not allowed under this SIN. The term "consulting" as defined herein does not include staff augmentation.

SIN 874-2 – Facilitation Services

Contractors shall provide facilitation and related decision support services for agencies engaged in collaboration efforts, working groups, or integrated product, process, or self-directed teams. Services covered are: defining, refining, and resolving disputes, disagreements, and divergent views, excluding EEO disputes; leading large and small group briefings and discussions; recording discussion content and enabling focused decision-making; stakeholder debriefings; preparing and providing draft and final reports relating to the facilitated issues. Conference planning and management services are excluded from this SIN. These services are specifically covered under Schedule 541, Advertising and Integrated Marketing Services. EEO disputes are covered under Schedule 738X, Human Resources & Equal Employment Opportunity and are excluded.

SIN 874-3 – Survey Services

Contractors shall provide surveying relating to mission-oriented business issues. Contractors shall assist with or perform all phases of the survey process, as follows: survey planning, design, and development; determining proper survey data collection methodology; pretest/pilot surveying; assessing reliability and validity of data; administering surveys using various types of data collection methods; survey database administration; analyses of quantitative and qualitative survey data; production of reports related to the survey; and briefings of results, to include discussion of recommendations and potential follow-up actions. Any surveys relating condition or status of equipment or property, or to Architect and Engineering services as defined in FAR 36.601-4 are prohibited under MOBIS.

SIN 874-5 – MOBIS Support Products

Contractors shall provide support products used in support of services offered in SINs 1 through 3, 6, 7, 8, and 99. They can include: workbooks, training manuals, slides, videotapes, CDs, DVDs, software programs, etc. Any support products offered must be supplied in conjunction with services offered herein and cannot be sold as stand alone products. Support products should not be a significant part of the task. Two categories of support products may be priced in this solicitation: (1) off-the-shelf and (2) custom-designed. No administrative supplies (i.e., binders, index cards, pencils, paper, pens, blank cassettes/videotapes/CDs/DVDs, etc.) shall be offered as support

products.

SIN 874-6 – Acquisition Management Support

Contractors shall provide support to agencies in conducting federal acquisition management activities, as follows: Acquisition planning assistance; developing acquisition documents, including quality assurance surveillance plans, statements of work, synopses, and solicitations; expert assistance in evaluating proposals; contract administration services; and competitive sourcing support, including OMB Circular A-76 studies, strategic sourcing studies, privatization studies, public-private partnerships, and Federal Activities Inventory Reform (FAIR) Act studies. Inherently Governmental services as identified FAR 7.503 or by the ordering agency are prohibited under MOBIS. It is the responsibility of the Contracting Officer placing the order to make this determination.

SIN 874-7 – Program and Project Management

Contractors shall provide services to assist agencies in planning, initiating, managing, executing, and closing out mission-oriented business programs and projects. Services included are: Project leadership and communications with stakeholders; project planning and scheduling; earned value management support; project management, including performance monitoring and measurement; reporting and documentation associated with project/program objectives; stakeholder briefings, participation in required meetings, and related project support services; program integration services; and project close-out services. All services must be provided and performed under the supervision/management of the contractor's Project Manager or Program Manager. Orders for services under this SIN without an accompanying Program/Project Manager labor category are prohibited. The primary purpose and preponderance of work for any project awarded under this SIN must be for professional business services. Services covered by other GSA Schedules shall only be included in the project scope if they are directly related to the successful accomplishment of the project and are incidental to the overall effort. It is the responsibility of the Contracting Officer placing the order to make this determination.
