Josh Jackson

Executive Vice President and General Manager
Solutions and Technology Group

Josh Jackson is executive vice president and general manager for SAIC's Solutions and Technology group, with responsibility for leading strategy and market growth and for developing solutions that capitalize on the company's capabilities in enterprise information technology; software; cyber; analytics; engineering, integration, and logistics; and training and mission solutions.

Jackson joined SAIC in 2002 and during his tenure has held positions of increasing authority. He started as a program manager and then became a division manager, chief engineer, and operations manager before joining the top business leadership of the company. He has supported the U.S. Army, U.S. Navy, U.S. Marine Corps, Combatant Commands, other defense agencies, NASA, and the National Institutes of Health. He has led the development of programs in test and evaluation, experimentation, simulation, analysis, training, and assessments and has worked on several different weapons systems and platforms both large and small and kinetic and non-kinetic.

Jackson has authored numerous technical papers, and his current research interests are the integration and application of disparate modeling and simulation tools to solve complex warfighting issues.

He is the chairman of the industry advisory board for the Virginia Modeling, Analysis, and Simulation Center (VMASC), and also serves on the Hampton Roads Chamber of Commerce Virginia Beach Board. He is a board member of People in Need, an organization that supports the homeless. Jackson is a member of SAIC's Inclusion and Diversity Council, and co-leads the company's women's business resource group.

Jackson holds a bachelor's degree in mechanical engineering from Virginia Tech and a Master of Business Administration from the College of William and Mary. He is a member of Tau Beta Pi, the national engineering honor society and is also a certified Project Management Professional.

SAIC is a premier technology integrator solving our nation's most complex modernization and readiness challenges across the defense, space, federal civilian, and intelligence markets. Our robust portfolio of offerings includes high-end solutions in systems engineering and integration; enterprise IT, including cloud services; cyber; software; advanced analytics and simulation; and training.

With an intimate understanding of our customers' challenges and deep expertise in existing and emerging technologies, we integrate the best components from our own portfolio and our partner ecosystem to rapidly deliver innovative, effective, and efficient solutions.

We are a team of 23,000 strong driven by mission, united purpose, and inspired by opportunity. Headquartered in Reston, Virginia, SAIC has annual revenues of approximately $6.5 billion. For more information, visit saic.com. For ongoing news, please visit our newsroom.
